

OGAM IN 3D

A one-day conference on Saturday 24th May 2008 at

The Dublin Institute for Advanced Studies

10 Burlington Road

Dublin 4

9.45 – 10.00: Introduction to the Ogam in 3D Conference (Werner Nahm, School of Theoretical Physics, DIAS)

10.00 – 11.00: ‘Saving and studying Maya Monuments in the 21st century’ (Alexandre Tokovinine, Harvard University)

11.00 – 11.40: Tea/Coffee

11.40 – 12.20: ‘The scanning of Scotland’s stones’ (Colin Muir, Historic Scotland’s Conservation Centre, Edinburgh)

12.20 – 1.00: ‘3D Laser Scanning of Outdoor Stone’ (Annemarie La Pensée, National Museums Liverpool)

1.00-2.30 Lunch Break

2.30 – 3.10: ‘The Irish Inscribed Stones Project in Galway: the experience of 3D Laser imaging of inscribed stone monuments from Early Medieval Ireland’ (Dáibhí Ó Cróinín and Thierry Daubos, National University of Ireland, Galway)

3.10 – 3.50: ‘The Ogam inscriptions and sites’, Fionnbarr Moore (National Monuments Service, Department of the Environment, Dublin)

3.50 – 4.30: Tea/Coffee

4.30 – 5.15: General discussion

5.15– 5.30: Conclusion (Fergus Kelly, School of Celtic Studies, DIAS)

The aim of the conference is to discuss the possibility of carrying out a 3D laser scanning project on the Ogam inscriptions, and to hear of the experiences of similar projects. The conference is free of charge, but those who are interested in attending are asked to book a place by contacting fkelly@celt.dias.ie before Wednesday 21st May (this does not apply to those who have already registered).

Tea/coffee will be provided.
